Kedves fiatalok, kedves vendégeink!

Európa a jövőnk, az otthonunk. Olyan közös jövőnk, ahol mi, dartsosok mindig csak a táblára célzunk, sohasem egymásra. Ti mindannyian hazátokat képviselitek, és mi, magyarok szeretettel fogadunk Benneteket.

A most kezdődő ifjúsági Európa-bajnokságon rengeteg fiatal versenyző között nemes versengésben dől majd el, ki a jobb, ki jut fel a csúcsra. A Darts a technika, az összpontosítás, az ügyesség és a tempó sportága. Mindenki sorakozzon fel a dobóvonal mögé és derüljön ki, kik lesznek a legjobbak, de sportszerűen megtapsoljuk a veszteseket is.

Ünnepeljük az összetartozást, európaiságunkat és kedvenc sportágunkat! Hajrá Mindenki, hajrá Darts!

Sok sikert kívánok!

Élő Norbert

elnök

Magyar Darts Szövetség

Dear Youth Players, Dear Guests!

Europe is our future, our home. A common future, where we, darts players always have to aim at the boards, but never at each other. All of you represent your own country, and we, Hungarian people welcome you with love.

We are going to start the WDF Europe Cup Youth Darts 2016 where a lot of talented youngsters will have a noble competition to decide, who is the best, who is going to reach out to the top. Darts is the sport of technique, concentration, skill and pace. Now everyone, please take your place at the throwing lines and let's find out, who will be the bests, but of course we will give a big applause to the losers as well.

Let's celebrate that we are together, we are Europeans and let's celebrate our favourite sport. Come on everyone! Come on Darts!

I wish good luck for everyone!

World's unique educational methodology incorporates Darts into its financial education system

The OTP Fáy András Foundation, set up by OTP Bank in 1992, is one of the most important participants of financial education in Hungary.

With more than 22 years of professional experience, the OTP Fáy András Foundation is continuing its professional activity under the motto of "Opportunities for the Future Generations". This focuses on expanding the financial, economic and management knowledge of students and promoting a conscious career and life-path for them.

The OK Project, which is the education system of the OTP Fáy András Foundation, teaches management skills and financial consciousness in an inspirational environment.

Based on modular elements, the OK Project is a development structure incorporating content and individual methodology that can easily be adapted to differing social, cultural and educational environments and systems. The method now primarily focuses on the financial, economic and management education of young people, but can also be effectively used to familiarise other topics and social affairs that are difficult to teach.

The main feature of the OK Project is that it offers the appropriate level of knowledge to all age-groups, from 7 to 18 year-olds, in yearly break-downs. Children are therefore able to progress from the understanding and comparison of present-day basic values to the world of the latest investments.

Apart from these, we have and are continuously developing thematic curricula that occupy a priority place in the range of interest of children. This makes it possible to present the connections between economy and the economies of the individuals even more easily.

Darts, which is very popular in Hungary, too, has received an outstanding role in several educational modules and in practice as well in the course of developments. The task, placed in an appropriate economic environment present risk taking and management through personal experiences and can also be used as an excellent team-building exercise.

The OK Project itself has a past of more than three years, during which it carried out the training of more than 70,000 students in Hungary and more than 10,000 students abroad. What is more, the programme is now international as well, given that as a franchise it now is up and running in Romania and Slovakia, besides Hungary.
